

Industrial Fab. - Iowa Sec. of State

All,

I know some were having a problem with the link Jennifer sent late last week (she is traveling for business and won't be in the office until Wednesday). I have done print screens below for Industrial Fab below for those having problems. My guess is that Jennifer looked at the stock screen (saw 5,000 shares of common stock) and asked how to determine the value of the stock. Again, my guess this is the extent of her question. We can find out more Wednesday when she is in the office.
